

## Patent Search – DIY easily

<b>Date:</b>	Tuesday, 08.11.2022 / 1:30 pm until 5:30 pm
<b>Form:</b>	Webinar via Livestorm®
<b>Prerequisite:</b>	You are interested in protection of technical inventions and research in patent data bases.
<b>Costs:</b>	This webinar is for free.
<b>Language:</b>	English

### Contents:

An invention must be new worldwide in order to be protected by a patent. Therefore, it makes sense to search for older, similar inventions before filing a patent application.

We will show you how to search the most important free search engines (see.ip, ESPACENET, DEPATISNET), and we will practice with you using practical cases.

### After the webinar you will know

- which search engines are suitable for you;
- how to do simple searches yourself;
- what you can conclude from the search results;
- how to find out if and where a patent is still valid;
- why it makes sense to stay tuned to patent search!

### Organisational matters:

In order to follow the workshop, we recommend to use two screens.

Please open the access link with Google Chrome, Mozilla Firefox, Safari, Opera or Microsoft Edge in a current version. More information on the browsers: <https://support.livestorm.co/article/19-technical-requirements-livestorm>

We look forward to your questions and contributions to the discussion.

If you have any questions or problems, please do not hesitate to contact us at [ip-academy@patentamt.at](mailto:ip-academy@patentamt.at) or by telephone on 01/53424.

See you soon. We look forward to seeing you!
